DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kyle Pendergrass on 8/25/07.

The application has been amended as follows:

Cancel claims 17-22 and 24-28.

Amendment to Claim 23:

23. (Currently Amended) A replacement sensor model for generating a replacement sensor model data file for use in image data processing, comprising:

A ground-to-image function for processing ground data obtained by an image sensor, the function being generated from data describing physical characteristics of the image sensor;

An adjustment vector for adjusting the function so as to reflect errors in the data;
and

An error covariance associated with the adjustment vector that contains approximately the same information as an error covariance of a rigorous sensor model of the image sensor; and

An output function for outputting the data file.

Response to Amendment

2. Examiner withdraws the 35 USC 101 rejection for claims 1-11 and 23. Examiner acknowledges cancelled claims 12-16.

Allowable Subject Matter

3. Claims 1-11, 23 and 29-32 (renumbered claims 1-11, 16 and 13-16, respectively) are allowed.

The following is an examiner's statement of reasons for allowance for independent claims 1, 23 and 29. The prior art fails to disclose ground-to-image function processing ground data obtained by an image sensor, the function being generated from data describing physical characteristics of the image sensor;

Adjusting the ground to image function so as to reflect errors in the data, an error covariance associated with the adjustment vector that containing the same information as an error covariance of a sensor model of the image sensor and outputting data file. These features are not taught in the prior art. Claims 2-11 and 30-32 depend on claims 1 and 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
